

END YOUR YEAR WITH AN ANATOMICAL SAFARI YOUR STUDENTS WILL NEVER FORGET!

BODY WORLDS

ANIMAL INSIDE OUT

Explore the intricate biology, zoology and physiology of the world's most spectacular creatures large and small in this fascinating new exhibition by *BODY WORLDS* creator, anatomist Dr. Gunther von Hagens. *ANIMAL INSIDE OUT* takes visitors on an anatomical safari of more than 100 specimens. Each animal is painstakingly preserved by the remarkable process of plastination—invented by Dr. von Hagens—for posterity.

From goats to giraffes, bulls to birds, and octopi to ostriches, visitors will discover the form and function of animals both exotic and familiar. Animal biology textbooks spring to life in this unforgettable museum learning experience.

DON'T MISS THIS OPPORTUNITY TO GIVE YOUR STUDENTS A REAL- LIFE LEARNING EXPERIENCE.

- Reserve early for best selection of dates & times
- Educator Guides available for download in early April
- Limited scholarship funds available on a first-come-first-serve basis.

TEACHER THINK TANK

If you are a K-12 educator, we want your feedback. Join us for a collaborative conversation exploring topics related to school and museum education, in particular, "How can The Leonardo support your classroom needs?"

March 18th, 5:30-7:00 p.m. at The Leonardo
Food and beverages provided

Participation qualifies all educators for a Free Educator Membership

If you are able to join us, please RSVP:
